Fractional Quality Management

FRACTIONAL QUALITY MANAGEMENT

WE BELIEVE SMALL TO MEDIUM SIZED BUSINESS SHOULD HAVE THE SAME TOOLS AS THE BIGGER PLAYERS!

Fractional Quality Management - support with small business in mind

Fractional Management has been used for decades to fill roles in the C-Suite. Fractional Quality Management directly helps your small to medium sized business cut costs, save time and boost productivity and profitability. What is Fractional Quality Management by Texas Quality Assurance?

- Dedicated quality manager from Texas Quality Assurance
- We handle reviewing supplier approvals, responding to customer pre-qualifications, closing corrective actions and more...
- No training time required
- Free current employees to perform more pressing tasks
- Monthly cost is less than salary + benefits of a full time employee

Hiring a Fractional Manager to perform the tasks of a Quality Manager perfectly aligns with our mission of saving you time and energy for what matters most. It also frees up cash flow for you to invest back into your business. By letting TQA be your Fractional Quality Manager, you pay us a fraction of the salary of a full time employee and keep the benefits cost you would pay a salaried employee.
